THE TASTE OF HOME

2025

The background of the page is a grayscale photograph of industrial machinery, likely from a food processing plant. It features large stainless steel tanks, pipes, and structural beams. A green, irregularly shaped text box is positioned in the upper right quadrant. The text is white and reads "Our Story". Below the text box, there is a large, detailed image of industrial equipment, including a scale labeled "SCALE (SC32)".

Our Story

Foster Clark Products Limited was founded back in 1889 by Mr. George Foster Clark in Great Britain. In 1967, the company was then set up in the strategically-positioned Island of Malta through a joint manufacturing venture between OXO/Brooke Bond and Francis Busuttil and Sons Limited, a distribution company in Malta for Foster Clark products. Following the acquisition of Brooke Bond in 1984, the company joined forces with the Unilever Group – one of the largest multinational Groups within the FMCG industry. At the turn of the century, after years of association with British partners, the Busuttil Group acquired full ownership of the company and thus Foster Clark Products Limited became a fully Maltese-owned company.

Mission

At Foster Clark, we have a proud history of developing and manufacturing high quality food and beverage products that satisfy our international customer base.

Vision

Foster Clark is committed to the relentless pursuit of sustainable growth. This will be achieved through leadership, innovation, strategic investment and by becoming the global brand of choice.

Focus

- Producing benefits for our customers, market partners and the community.
- Providing a great place to work where people are inspired to nurture their talents and thrive.
- Upholding high ethical standards of business conduct.
- Taking meaningful and consistent steps to achieve excellence.

The Company Today

Our position today reflects the sound and far-sighted vision of Mr. Paul Busuttil as well as the prudent, yet ambitious stewardship of his successors.

Since 1967, the company has evolved from a small production operation to numerous state-of-the-art manufacturing facilities. Foster Clark has always thrived on its high product quality, continual development and strict control procedures all of which adhere to international standards.

With half a century of manufacturing and export experience, this successful and strategic approach has further positioned the Brand as a dominant leader across much of the Middle Eastern & Pan-African markets. Continuous growth in other regions worldwide has also enabled the Company to extend its goal of meeting the evolving demands and expectations of its culturally diverse customer base across the globe.

Foster Clark provides a wide range of product categories across its brand portfolio, namely:

- Beverages
- Baking mixes
- Fruit Preserves
- Sauces & Dressings
- Desserts
- Baking Aids
- Cereals

Our Beverage range is renowned for its authentic quality and wide variety of flavours. This is available in various convenience packaging formats (sachets, refill bags, jars, tins and tubs) to suit different market and consumer needs or requirements.

Our Desserts and Baking Aids categories claim dominant market shares in their respective trade arena. Every experienced housewife and cooking enthusiast acknowledges that for consistent good results one needs to use high quality ingredients and baking aids, which Foster Clark proudly delivers.

A vibrant advertisement for Foster Clark's juice. The background is a bright green gradient. In the top left, there are green leaves. In the top right, various fruits are floating: orange slices, a pineapple wedge, raspberries, blueberries, blackberries, and a whole orange. A large, dynamic splash of yellow-orange juice dominates the center and bottom. A glass of the same juice is visible in the bottom right corner. In the center of the splash is a dark green circular logo with a gold border.
